Be proud of what
you're already doing...

...and if you can,
do a little more.

So
don't
give
up.

But if we
put those sticks
together...

...we can build
something strong.

Any one action we take
to make the world
a better place
can feel like
it's just
a flimsy stick.

But think about
the dams
that beavers build.

They're built out of
lots and lots
(and lots and lots)
of sticks.

These days,
life can feel
pretty overwhelming.

War
Dysfunctional government
Income inequality
Climate catastrophe
Rogue A.I.
ICE detainments & deportations
Voter suppression

It's hard not to feel
POWERLESS.
