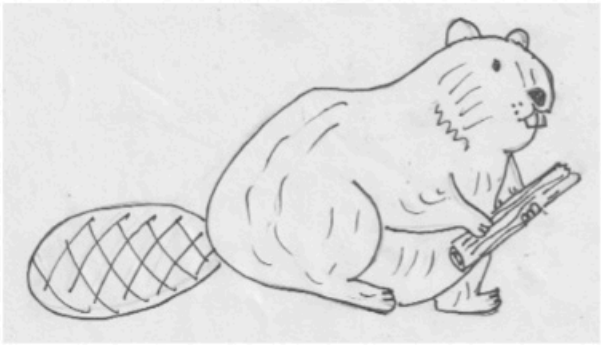
How to Give a DAM*



*a.k.a.
Lessons in Resistance
from our
Beaver Friends

These days,
life can feel
pretty overwhelming.

War

Dysfunctional government

Income inequality

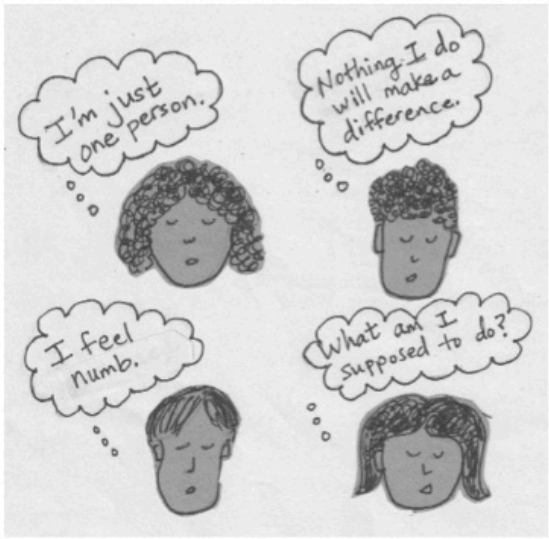
Rogue A.I.

Climate catastrophe

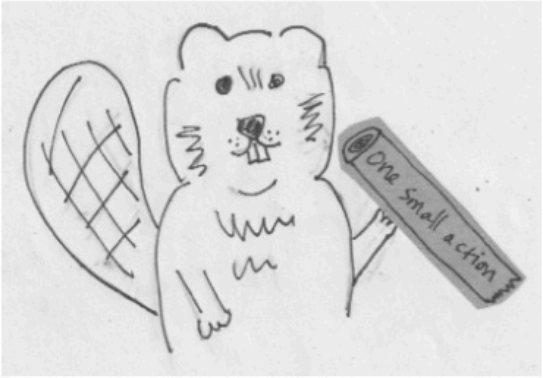
ICE detainments & deportations

Voter suppression

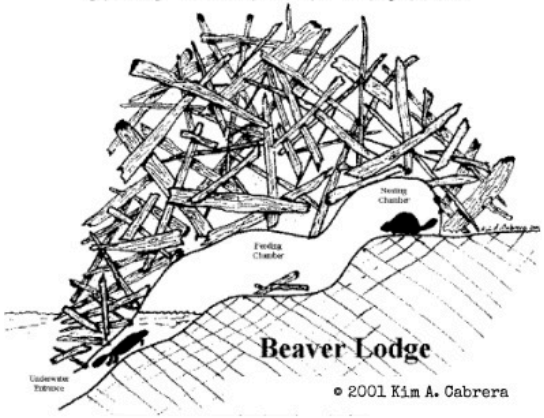
It's hard not to feel
POWERLESS.



Any one action we take
to make the world
a better place
can feel like
it's just
a flimsy stick.

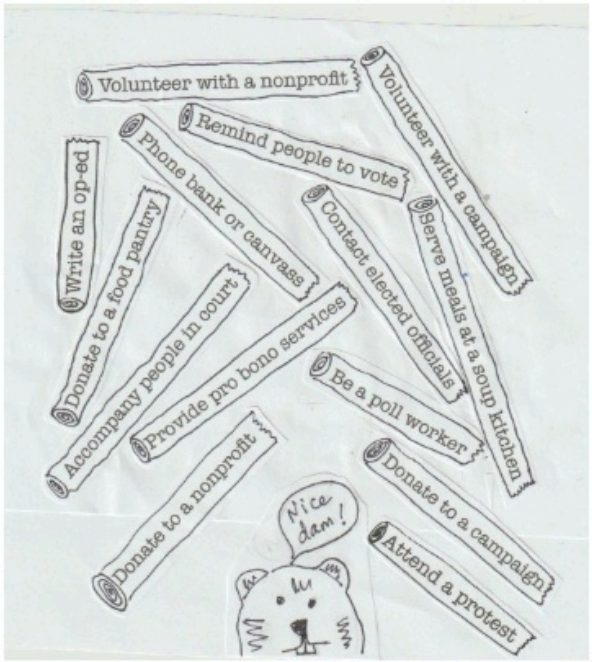


But think about
the dams
that beavers build.



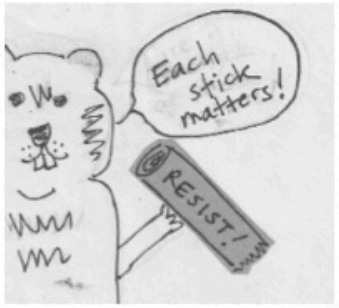
They're built out of
lots and lots
(and lots and lots)
of sticks.

But if we
put those sticks
together...



...we can build
something strong.

So
don't
give
up.



Be proud of what
you're already doing...

...and if you can,
do a little more.
